## PROFESSIONAL SUMMARY

---

AI/ML Engineer with hands-on experience building enterprise AI applications using Python, FastAPI, Large Language Models (LLMs), and Generative AI. Developed AI-powered solutions for document intelligence, resume intelligence, conversational AI, and compliance automation by integrating OCR, cloud technologies, and scalable backend services. Passionate about designing production-ready AI systems that automate business workflows through modern AI engineering practices.

## TECHNICAL SKILLS

---

- **Programming Languages:** Python, SQL, TypeScript
- **AI, Machine Learning & Generative AI:** Machine Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision, Large Language Models (LLMs), Prompt Engineering, Vision LLMs, Document Intelligence, OCR, Conversational AI, Resume Intelligence
- **Backend, APIs & Databases:** FastAPI, Flask, REST APIs, WebSockets, PostgreSQL, MySQL, Redis
- **Cloud & AI Platforms:** AWS S3, AWS EC2, OpenAI, Groq, Mistral OCR, ElevenLabs, Hugging Face
- **Frameworks & Libraries:** Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, OpenCV, Playwright
- **Developer Tools:** Git, Docker, MLflow

## WORK EXPERIENCE

---

**Mtouch Labs Pvt Ltd, AI/ML Trainee** 03/2026 – Present | Hyderabad

- Contributed to the development of **CoreLynx AI**, an enterprise compliance platform that automates document verification using Vision LLMs, OCR, and government portal validation workflows.
- Developed AI-powered resume parsing and resume matching services using **FastAPI** and **LLMs**, enabling automated candidate screening and interview preparation.
- Built backend services for an **AI-driven customer consultation assistant**, integrating **Groq LLM**, **Redis**, **MySQL**, and **WebSockets** to deliver context-aware conversational experiences.
- Integrated enterprise AI workflows with **OpenAI GPT-4o**, **Mistral OCR**, **AWS S3**, and **PostgreSQL** to support scalable document processing and intelligent automation.

**Navadr Technologies Solutions, Data Scientist Trainee** 05/2025 – 08/2025 | Remote

- Developed end-to-end machine learning applications covering data preprocessing, model training, evaluation, and deployment using **FastAPI**.
- Built predictive models using classical machine learning and deep learning techniques for business-oriented use cases.
- Developed an AI-powered **RAG-based FAQ assistant** using **ChromaDB** and **LLMs** to provide context-aware responses from enterprise knowledge sources.

**Renew Private Limited, Graduate Engineer Trainee - EHS [Data Focussed]** 06/2023 – 07/2024 | Jaisalmer

- Collected, cleaned, and analyzed EHS data including incident logs, safety inspections, and audit reports using Python (Pandas)

- Generated monthly safety reports and visualized patterns in incident types, root causes, and near misses using matplotlib and seaborn
- Contributed to internal presentations by preparing data summaries and visual reports for safety performance reviews

## PROFESSIONAL PROJECTS

---

### CoreLynx AI – Enterprise Compliance Platform,

*Enterprise AI platform for automated document extraction and compliance verification.*

- Developed AI-powered document extraction workflows using **GPT-4o Vision** and **Mistral OCR**.
- Integrated OCR pipelines and secure **AWS S3** document processing for compliance validation.
- Contributed to enterprise backend services for automated government portal verification.

**Tech Stack:** Python, FastAPI, GPT-4o Vision, Mistral OCR, Node.js, TypeScript, PostgreSQL, Redis, AWS S3, Playwright

### HR AI Voice Interview System,

*Enterprise AI platform for automated resume screening and voice interview workflows.*

- Developed **FastAPI** services for resume parsing and AI-powered resume matching.
- Implemented LLM-based candidate scoring and interview question generation.
- Integrated enterprise recruitment workflows with **AWS S3**, **PostgreSQL**, and **ElevenLabs**.

**Tech Stack:** Python, FastAPI, Groq, OpenAI, PostgreSQL, AWS S3, ElevenLabs, Node.js, TypeScript

### MTouch AI Assistant, *Enterprise conversational AI assistant for intelligent customer engagement.*

- Developed backend AI services for context-aware conversational workflows.
- Integrated **Groq LLM**, **Redis**, and **MySQL** for intelligent query handling and session management.
- Built scalable WebSocket-based APIs for real-time customer interactions.

**Tech Stack:** Python, FastAPI, Groq, Redis, MySQL, WebSockets

## EDUCATION

---

### Rajiv Gandhi University of Knowledge and Technologies

05/2023 | Srikakulam

*Mechanical Engineering*

Achieved academic excellence with a stellar 92.9% in graduation.

## CERTIFICATES

---

**Professional Data Science Certification - Excelr 2024** ( • Hands-on training in Python, SQL, Statistics, and Machine Learning, focusing on data cleaning, EDA, and feature engineering • Built and evaluated end-to-end ML models on real-world datasets under mentor guidance)

## LANGUAGES

---

English | Hindi | Telugu
